

SEMI-WEEKLY INTERIOR JOURNAL.

VOL. XX.

STANFORD, KY., TUESDAY, NOVEMBER 1, 1892.

NO. 71

LONDON, LAUREL COUNTY.

—Gov. Hindman was the guest of Col. Frank Riley Sunday.

—Owing to the lack of rain stock water is very scarce around about London.

—The hog law is still in effect but they can be seen on the streets every day in quantities.

—Waltz Goff, of near Pittsburgh, had the misfortune to have his house burned Friday night.

—A sister of McCalla Fitzgerald, a handsome young lady of Georgetown, is visiting her brother here.

—A so called opera troupe gave an entertainment at Boreing's store Saturday with a very small attendance.

—There are four regular butcher shops in London and about 10 farmers outside of town regularly in the business and all are getting rich.

—Col. L. Roberts leaves London next Saturday and will no longer be the proprietor of the Jackson House. He has been a good hotel man and given satisfaction to all of his guests.

—William Green, the saw mill man, left here Thursday night for English Station, Ky., to bring back Reece Tompkins, who had skipped a \$500 bond for obtaining goods under false pretenses, which Green was on. He came back Saturday safe and sound and lodged his man in jail.

—“Aunt Betay” Moore who was known by every citizen in London died Friday at the home of Judge John M. Green in Pineville, and the remains were brought here Sunday for burial. A large number of people who knew and appreciated her kindness in life followed the remains to their last resting place.

—P. F. Stillings came in Saturday from a trip with Gov. Hindman through Clay, Perry, Leslie, Letcher and Harlan counties and at each county seat the Governor was greeted with large audiences. Hindman will get a big vote in Harlan county owing to matters the writer would not use as campaign argument.

—W. H. Brown, better known as “Brownie,” who is a printer by trade but who has lately been in the real estate business and a general hustler, was married Saturday night to Miss Minnie Parman, the handsome daughter of Mr. Reed Parman. May their happiness all the way through life be as full as the tin buckets and pans were full of noise at the charivari the night of the marriage.

—S. J. and J. S. Simpson came here a few weeks ago and rented the Commercial Hotel from H. C. Broughton. Last week they moved their families in and commenced to sell liquor openly. Friday night two marshal John T. Hatchett “pulled” the outfit and they are now in jail awaiting the action of the grand jury. United States Commissioner C. B. Faris had them before him Saturday and they are expected to be at Covington also in December.

—Gov. Buckner and McCrory spoke here Thursday to about 200 people in the interest of the democratic party. Gov. Buckner took his text on the subject of “taxation” and while no orator he spoke in plain language not to be misunderstood on that question and every word seemed to be appreciated. Gov. McCrory followed and made a rattling good all round democratic speech that rejoiced every democrat present and made them feel happy all over and if his prophecies are true our hopes and expectations will certainly be gratified.

The Election and Inauguration.

The all-absorbing topic just now is the election; another great item of popular interest will be the inauguration; but no one at present can foretell how many items of interest to horsemen or how many important items will be published in the Kentucky Stock Farm during the next 14 months. This much can be relied upon, that they will all be published, and as soon as they take place, yet the Kentucky Stock Farm offers to send its paper from date to January 1894—a period of 14 months—for \$2, the regular price of a year's subscription. This is an exceptionally rare offer and one of which horsemen should avail themselves. The Stock Farm is published in Lexington, Ky., “The Hub of the Horse Universe.” The earliest and most complete news from the “Hub” is its specialty and all news from other quarters its aim. A special Christmas number will be issued this year, which as a book of reference will be worth the price of subscription. Orders for the paper will be received at this office.

—The work of copying the late registration returns in Louisville has been completed and shows that 16,725 democrats, 8,500 republicans, 50 third-parties, 66 prohibitionists, 26 independents and 10,325 whose party affiliation is unknown, registered, the total being 35,716. —C.J.

—The Anchor line steamship Romania, Capt. Young, went ashore at the mouth of the Arnoya, near Penich, and 113 of the 122 persons on board were lost. The Romania left Liverpool Oct. 23 for Bombay. She carried 55 passengers, a crew of 67 men and a full cargo of valuable merchandise.

DILLION.

Not on the Maps, But the Pride of the Mountains. A Suburb of Stanford.

To the Editor Interior Journal.

Your correspondent begs to dilate upon a mountain village, not yet old enough to be on the maps, with a business enterprise that is the special pride of the mountains.

The people of Stanford are very proud, and justly so, of the advantages which have late come to their fair city through their own industry and money. Water-works, ice factory, electric light plant and street car enterprises are things to feel proud of, for they are evidences of prosperity. But there are advantages which conduct to the growth and importance of your city, which are far greater than these. Next to having manufactures located in your city, is the pleasant and profitable business connection you have with live industries up in the mountains adjacent.

While the splendid agricultural interests which thrive around Stanford insure a decent support to the business men of the town, their profits come largely from the constant and increasing interchange of commodities with the villages situated along the Knoxville Branch road for 50 miles or more. There is scarcely a business enterprise from Rowland to Jellico, however small or great, but contributes more or less to the growth of Stanford's various business interests, whether manufactures, colleges, banks, professions, hotels, stores, etc. This profitable business connection should be jealously guarded and carefully maintained.

To keep pace with the rapid growth of many of the business points which are located every few miles along this road, and to appreciate their importance as factors in the development of wealth, one must visit them occasionally. The growth of enterprises in some of them is remarkable. The history of Dillon would read like a fiction by Col. Sellers.

Your writer spent a day there recently and made notes of what he saw and heard.

Not more than two years ago Mr. W. R. Dillon, a citizen of the east end of Lincoln county, picked up himself and a few hundred dollars from the wreck of some former enterprise and planted a small saw mill on a sand bank of Rockcastle river, just beyond Livingston. From this small beginning is seen to day one of the finest and most thoroughly equipped lumber and manufacturing plants in Eastern Kentucky.

To aid in some small way this “infant industry” and to give the reader some idea of the possibilities of this particular region of our State, where capital and energy and business capacity seek in earnest to develop its timber resources, your reporter offers a brief description of this plant as it now stands at the top of the ladder of success:

Within about 18 months from the small beginning before mentioned, the plant now covers ten acres of ground. The planing mill proper is a substantial two story building, 100x125 feet, roofed with corrugated iron. The machinery is all of the most modern and nothing seems to be lacking to construct anything from “the tree in the woods to the tallest spire.” Among the dozens of curious mechanisms and automatic shapers are the following: Dado, automatic cut-off, shaper, boring machine, mortise, lathe, combined rib and cut-off saws, bracket, or scroll saw, pony planer, moulding planer, resaw, band saw, sandpapering machine, four sided planer, rip-saw and a curious and modern automatic knife-grinder. In the employ of the company are skilled workmen, who thoroughly understand how to use this machinery to get the best results, therefore the owners are justified in proposing to the trade to contract for and furnish promptly and satisfactorily anything made of wood, that enters into a building, no matter how plain or how elaborate and elegant it may be desired.

Employed in and around the mill are about 40 men, while over 300 persons are furnished employment in some capacity connected with the enterprise, at wages from \$1 to \$5 a day.

The capacity of the saw-mill is about 25,000 feet of lumber a day. From this product the planing mill is so thoroughly equipped with machinery that it is capable of doing the work of probably 10,000 men each day!

The main source of the supply of logs is by drifting down the river, which necessitates an expensive boom for catching and securing the logs when high water comes. Mills depending upon water transportation have been forced generally to suspend work on account of the low stage of the river. But not so at Dillon. Logs are brought from the interior over great mountains by means of stationary engines and dropped over tall bluffs almost into the mill yard.

In the conduct of this successful enterprise Mr. Dillon has associated with him Mr. A. C. Carr, a native of Virginia, a master mechanic of over 15 years' experience, an educated architect and a mathematical genius. Also Mr. Andrew

JOHNSON.

Johnson, a practical machinist of eight years' experience in saw and planing mill enterprises. In connection with the manufactory is a large general store, under the management of Mr. E. R. Davis, assisted by Mr. Dillon's two popular sons, Wick and Hurd. Stories of Wick's juvenile wickedness are out of order now, as he has reformed. At the age of three or four he was a prodigy in unique profanity. Once his father expostulated with him for swearing at a frog in the presence of the minister. “Well,” lisped the young imp, “Why didn't the blank thing walk up like a man? What in the blank did it come jumping at me for?”

There are other live things with live places with live men and spirited enterprises “up the road,” which your writer begs to mention in a future issue of the JOURNAL. The policy of the present management of the L. & N. is favorable to the full development of the vast resources of this region of our State, and a number of new enterprises may shortly awake into existence that will bring into play all the spare capital that lies hoarded away in the vaults of Stanford's banks awaiting the demands of the times.

SID.

MATRIMONIAL MATTERS.

—Col. Philip B. Thompson and Mrs Martha B. Thompson will celebrate their golden wedding Nov. 2, at their home in Harrodsburg.

—The Somerset Reporter has notice of the elopement and marriage of J. P. Hornday to Miss Jennie Perkins, daughter of Dr. George Perkins. The ceremony was performed at the Grand Hotel, Cincinnati.

—The marriage of W. Bailey Hill, son of Col. T. P. Hill, and Miss Belle, daughter of Major Jones, was solemnized at the latter's home at 4 p. m. Thursday, Rev. W. J. Ward officiating. After the ceremony, which was witnessed by only the immediate relatives and close friends, Mr. and Mrs. Hill drove with them to the groom's residence, where his sister, Mrs. Ben Spalding, had superintended the preparation of an elegant supper and which was spread in tempting array. After full justice had been done to it, the party spent several hours very pleasantly, the new pair bearing the honors of the evening very gracefully. Mr. Hill is an industrious and moral young man, with a fine farm and the knowledge of how to run it. The bride is strikingly pretty and as accomplished and lovable as she is comely of person. Mr. Hill seems to have won a prize for a good wife is to be valued above rubies. They spent Sunday with Col. Hill and family and looked as happy as the days are long.

DEATHS DOINGS.

—Miss Minnie Clay, grand-daughter of the great commoner, died in Fayette of cancer, aged 40.

—Mrs. B. K. Wearen has received a letter telling of the death of her nephew, Mr. Sam H. Hardin, who died recently at Portland, Oregon. He was well-known here, where he clerked for Mr. Wearen, as a faithful and upright member of the Baptist church.

—CRAIG.—As foreshadowed in our last, Dr. John Miller Craig passed from life, the end coming at midnight Friday. His disease was typho-malarial fever and he was sick five weeks. The crisis seemed to have been passed and he was on a fair way to recovery, when some 48 hours before his death a blood vessel broke on his brain. After that he was entirely unconscious. During his illness he spoke of death several times and appeared to be convinced that he would die. Though preferring to live, so as to better serve God, he said he was not afraid to die and seemed resigned to the Master's will. He was a member of the Millersburg Presbyterian church and was an excellent and promising young man in every way. Dr. Craig was about 25 years of age and was the eldest son of Mr. Wm. Craig, of Millersburg, by his second wife, who was Miss Callie Harris. He graduated in schools both in Central University and Centre College, and afterwards at the Pulte Homeopathic Medical College, Cincinnati. Some two years ago he began to practice here and had established himself in the good graces of the people. His father, who has not recovered from the stroke of paralysis he received last summer, was unable to attend his bedside or be present at the burial, which occurred Sunday afternoon in Buffalo Cemetery, in the presence of a large crowd of friends, after a service by Rev. Ben Helm, at the grave, which the doctor's young lady friends had lined with muslin and literally made a bed of roses. Young, healthy and full of promise, this death is another of the many reminders that we have had, recently that in the midst of life we are in death.

The main source of the supply of logs is by drifting down the river, which necessitates an expensive boom for catching and securing the logs when high water comes. Mills depending upon water transportation have been forced generally to suspend work on account of the low stage of the river. But not so at Dillon. Logs are brought from the interior over great mountains by means of stationary engines and dropped over tall bluffs almost into the mill yard.

In the conduct of this successful enterprise Mr. Dillon has associated with him Mr. A. C. Carr, a native of Virginia, a master mechanic of over 15 years' experience, an educated architect and a mathematical genius. Also Mr. Andrew

LANCASTER, GARRARD COUNTY.

—Miss Kate Walden has accepted a position as saleslady in Joseph's store.

—Capt. and Mrs. T. W. Olds have moved to the Sweeney property on Richmond Street.

—A good rain is needed very badly.

Nearly all the cisterns in town are very low and a good many have no water in them.

—J. M. Rothwell will speak at the court-house Saturday afternoon. Mort is a good speaker and our people should give him a large crowd.

—The large tobacco barn of Mr. Ben Dann, in Lower Garrard was destroyed by fire Friday night. The barn was filled with tobacco which was insured. It is supposed to be the work of an incendiary.

—An effort is being made to have a temporary wire run from the depot to the court-house to receive the election bulletins. This is a capital idea and will work if each fellow will put up a small amount to defray expenses and pay an operator.

—The union meeting was held at the Christian church Sunday night, when Rev. Grear, of the Methodist church preached. A vote was taken and it was decided to continue the meeting through the winter. Next Sunday night Rev. Terry will preach at the Baptist church.

—Saturday afternoon as Misses Kitty and Jennie Perkins were returning to their home at Marksburg the horses they were driving became frightened and overturning the buggy threw the occupants violently to the ground. Both young ladies were severely cut and bruised about the face and body but no bones were broken.

—There is a slight indication of some interest being taken in the election as the time approaches when vote is to be taken. It is not, however, within the memory of the oldest inhabitant when there was such universal apathy manifested in a presidential contest as in that now before the people. The candidates for the county officers are hustling around and making things lively, both sides claiming a victory.

—It is strange that men will seek the position of representative in the Legislature, and after taking an oath to discharge their duties faithfully, absent themselves from the House and draw their pay the same as if they had honestly earned it. It is claimed that much of the legislation of the late session is unconstitutional, on account of having been passed without a constitutional majority. The representatives from Garrard have been faithful and attentive to his duties, but the same cannot be said of many others who have been absent at roll call. After all the fault is with the people in not being more careful in the selection of their public servants.

—Mrs. W. G. Dunlap and son George are visiting at Gen. W. J. Landram. Mr. Goodloe Lackey and family left Monday for their home in Kansas City. Mr. and Mrs. Will Hudgings, of Hedgeville spent Sunday with Mrs. C. C. Storms. Miss Mattie Elkin has returned from Louisville. Miss Altie Marksburg spent Friday in Danville. Miss Lillie Chairs left Monday for the Conservatory of Music in Cincinnati. Miss Jane Lusk is the guest of Miss Maggie Jennings. Mr. Utter Pope, of Boyle was in town Sunday. Mrs. Borders, of Danville, is visiting her sister, Mrs. C. C. Storms. Dr. James Grant has returned from Somerset. Mrs. Dr. Price Grant, of Danville, visited her mother, Mrs. Harriet Price Sunday. Mr. Charlie Frisbie, of Centre College, was home Saturday and Sunday.

—THOUGH LOST TO SIGHT TO MEMORY DEAR.

[The authorship of this line is not certainly known, though it is asserted that Ruthven Jenkins wrote the following in 1801 and published it in the Greenwich Magazine.]

Sweetheart, good by! the fluttering sail
Is spread to wait me far from thee;
And soon before the fav'ring gale
My ship shall bound upon the sea.

Perc'hance, all desolate and forlorn,
These eyes shall miss thee many a year,
But unforgotten every charm,

Though lost to sight to mem'r dear.

Sweetheart, goodbye! one last embrace,
Oh, cruel fate, true souls to sever!
Yet in this heart's most sacred place
Thou, thou alone shall dwell forever!

And still shall recollection trace
In fancy's mirror ever near,

Each smile, each tear that from that face,

Though lost to sight to memory dear.

(From the selections of the editor's dear, dead wife, and printed in loving memory of her.)

—The nitro-glycerine factory at Lima, O., exploded Friday, killing three men at work there and leaving nothing but a hole in the ground where it stood. A farm house 1,500 yards away was completely wrecked and a servant girl killed while the plate glass in a bank three miles off was shattered.

—Robert T. Lincoln, who is drawing some \$2,000 per month for services he is supposed to be rendering his country in Great Britain, is repeating on the stump in Illinois parrot-like prophecies of disaster and ruin if Cleveland is again elected president. It is a sad and silly role for the son of his father to be playing.—Louisville Times.

DO YOU

BUY OR SELL?

We sell anything in our line of merchandise for a less per cent. than any of our competitors for the same line of goods. We sell the

For Representative in Congress,
JAMES B. McCREARY.

For Judge Circuit Court,
MICAH C. SAUFLEY.

For Commonwealth's Attorney,
JOHN SAMUEL OWSLEY.

For Clerk Circuit Court,
JAMES P. BAILEY.

For Sheriff,
J. N. MENEFEE.

UNLESS Lincoln county democrats will do their full duty we fear our candidate for circuit judge is in danger of defeat and these lines are therefore to warn them to be up and doing. The republicans are letting no grass grow under their feet. Every mother's son of a negro has been drilled on the new way of voting in meetings held nightly for the purpose and every one will be out next Tuesday to put the cross under the eagle. On the other hand the democrats seem careless and indifferent and unless they arouse from their lethargy we will not only lose Lincoln county, but have the mortification of seeing one of the best equipped lawyers for the bench in the State defeated by a man in no sense his equal as a judge or exponent of law. The republicans are making a quiet but aggressive fight and we hear by grapevine wire that they not only say they are going to carry Garrard and Boyle by large majorities, but actually claim Mercer county by 50 majority. Granting that they have even partial grounds for such claims, it will be seen how important it is for our people to turn out and do their distinguished county man, Judge Saufley, honor. We appeal to every democrat in the county and we trust not in vain, to go to the polls, put the stencil mark under the rooster on the ballot and deposit it in the box. That is all that is necessary and will insure your vote to be counted for Cleveland, McCreary, Saufley, Owlesley, Bailey and Menefee.

WHILE in the act of committing burglary, at Cincinnati, Charles Boyer was caught dead to rights and lodged in jail. Court being in session, he was indicted, tried and given five years, all the same day and in less than 12 hours from the time of the commission of his crime he was eating his supper in the penitentiary. If all crimes were as swiftly and as surely punished prison-houses would soon have their population materially reduced. The uncertainty of punishment and the law's delay cause many a rascal to sin, who would hesitate if he knew swift and certain conviction would follow the detection of his crime.

THE third largest fire in the history of the United States occurred at Milwaukee Friday night. Starting from an explosion of a barrel of coal oil in the Union Company's works, 20 blocks of fine buildings were destroyed, aggregating 465 in number and rendering 3,000 people homeless. Five persons were killed and a number injured. The aggregate loss is \$6,000,000, with \$3,250,000 insurance. The light of the fire could be seen from the top of tall buildings in Chicago, 85 miles distant. Appeals for help have been made and \$50,000 were secured the first day.

FOUR years ago the republicans had only to fight for four States, New York, New Jersey, Connecticut and Indiana. This year they are forced to make a desperate struggle in 13, the four named and Illinois, Iowa, Wisconsin, Michigan, Nebraska, Nevada, Idaho, New Hampshire and Montana. Their resources are almost illimitable but when it comes to the question of buying the election, as they propose, they will have to fry more fat from the monopolists than those pampered individuals ever dream ed of.

THE letter of Hon. Adlai E. Stevenson accepting the democratic nomination for vice-president is a little late but it gets there all the same. It is given in the dailies yesterday and is a concise and excellent statement of democratic principles.

THE extra session of the Legislature will come to an end at noon to day, but unfortunately this is not the last of the body. It will resume its regular session Nov. 15, the more's the pity.

THE democratic outlook is good all along the line and the indications point strongly to the election of our national democratic ticket and "four more years of Grover."

NEWSY NOTES.

—An Ohio match factory turns out 57,000,000 a day.

—Eight men have been sentenced to hang for one murder, at Chesterton, Md.

—Another Blue-Grass creamery has gone up the spout—the one at Winches ter.

—At Paris Col. Zeke Clay fell from the 2d story of his house, receiving serious but not fatal injuries.

—J. L. Spurrier, the U. S. deputy revenue collector shot by moonshiners in Lincoln county, Tenn., died at Nashville.

—During three months the C. & O. has earned in gross \$2,800,000, leaving after paying expenses and all fixed charges, \$257,000 net.

—The Court of Appeals has affirmed the decision of the Greenup court, sentencing Mrs. Crump for seven years for the murder of her husband.

—The Teutonic, which arrived in New York Thursday, reports two of her passengers insane, as a result of fear of shipwreck during a terrible gale.

—The democratic electors have been withdrawn in Colorado and the attempt will be made to carry the State for Weaver by fusion with the third party.

—The betting in Chicago among the sporting men is even money that Cleveland will carry Illinois. Good odds are offered that Altgeld will be victorious.

—A Chicago dispatch states that Geo. M. Pullman, the sleeping car magnate, and nine others have made up a pool of \$100,000 and sent it to Indiana to be added to a corruption fund to be used in an effort to save Mr. Harrison the humiliation of defeat in his own State.

—A murderer and three other prisoners escaped from the Elizabethtown jail Sunday.

—James D. Bartlett, who was a member of the Jeanette expedition, shot and killed his wife's niece, wounded his wife and committed suicide.

—It is said that the famous English race horse, Ormond, winner of the Derby of 1888, has been bought by W. O. MacDonough, of California, for \$150,000.

—Nancy Hanks' owner, J. Malcolm Forbes, has made an offer of a gift of \$6,000 to the owner and driver of the first horse that makes a 2-minute mile record in the next five years.

—C. M. Baker, District Passenger Agent of the Kansas City, Fort Scott & Memphis Railroad, was shot and killed at Knoxville by his own son. Baker was drunk and was beating the boy.

—Hon. William David Meriwether who succeeded Henry Clay in the United States Senate and who was a prominent figure in Kentucky politics of the past, celebrated his 93rd birthday Saturday, in Jefferson county.

—Gen. Cassius Marcellus Clay has presented his fine library, marble and bronze statuary and many paintings and pictures, the collection of many years, to the county of Madison as a nucleus for the establishment of a large public library at Richmond.

—Near Middlesboro, Sheriff Colson and posse in pursuit of Rice Green and his gang of outlaws, were fired on from ambush. The officers returned the salute, seriously wounding Green and another but both escaped. Green is one of the worst characters in the mountains.

DANVILLE.

—Mr. Hubert McGoodwin is quite ill with something like flux.

—Up to noon Monday 16 persons registered, who were not able to register Oct. 4th—14 democrats and two republicans.

—Mr. Robert Wade died at his home in Mitchellsburg Thursday and was buried at Perryville Friday. He had been paralyzed for a long time.

—The handsomest omnibus ever seen in Danville is one just completed for Hutchings & Reed by the Central Kentucky Carriage Co. It named Don Pizarro, 2:14.

—The alleged holding up of two Germans at 7 o'clock p. m. in the limits of Junction City several weeks ago by several young men, bids fair to end in smoke. Mr. Rozel, one of the Germans, writes Judge McFerran that nothing like a robbery, or any attempt at a robbery, took place. The judge will, however, dispose of the matter regularly two weeks from to day, Monday, giving all who desire a hearing.

—Milton Irvine, a well-known colored blacksmith, who had a shop at the junction of the Lancaster and Stanford pikes, near Danville, fell over, it is thought from heart disease, Saturday evening, while talking with some friends on 2d street. He was taken home and died in a few minutes. He was buried in the colored cemetery Monday. Milton had been at work all day in apparently good health.

—"That Old-Time Child Roberta" is the title of a new book by Mrs. Sophie Fox Sea, of Louisville, a lady who deservedly occupies a leading place among Kentucky writers of both prose and poetry. Mrs. Sea is a daughter of the late Judge F. T. Fox, of Danville, who during a part of his long professional life was a citizen of Stanford. The scenes of Mrs. Sea's last book, which is said to be her masterpiece, are laid in Kentucky.

—Last Friday Chief of Police Silliman received an anonymous letter informing him that he would be killed, his house burned down and the balance of the town destroyed if he killed any more dogs. While the author of this communication is not thought to be at all dangerous, while he is thought to be nothing more important than the average idiot, who loves to write anonymous letters, let him rest assured of the fact that he is known.

—While at Pine Knot, the fishing party mentioned in our last, Messrs. Sandifer, Pearce, Flagg and McGoodwin, met with Col John T. Dillehay, a former citizen of Danville, who advised them to beware of a wild bear seen frequently in the vicinity of their proposed camping ground, which had carried off sheep, pigs, turkeys and chickens without number and which, he believed, would not hesitate to attack a man, so great was his reputed ferocity. Col. Dillehay also advised them to beware of thieves, as the houses of eight prominent citizens had been burglarized and eight valuable gold watches taken. It may well be understood that the fishermen, after hearing this news, went into camp with great misgivings, not only as to the safety of their lives, but as to the safety of their valuable time pieces which they had with them. The first night passed without any cause to apprehend unwelcome visitors, so the next night, after a good day's sport, they retired with a feeling something like security. All were soon sleeping the sleep of innocence, and it was 20 minutes past 12 o'clock when Clement Robinson, the colored cook, was awoken by a low growl, not far from the window of the club-house, where all were sleeping. Not wishing to disturb the weary fishermen, he listened a short time, when the growl was repeated. Arising quietly he took a trusty Winchester in his hand and stepped to the door. Judge of his astonishment and

LOUISVILLE STORE, A. Hays, Manager.

fear when about 20 feet distant, in the Egyptian darkness, he saw what appeared to be two balls of fire. While looking at them the growl was again heard, the sound coming from where the balls of fire were seen. This convinced him that what seemed to be balls of fire were in reality the eyes of a wild animal, so taking deliberate aim he fired. With a yell the animal fell dead. Taking a light Robinson was surprised to find he had killed a large black mountain bear. The shot awakened the sleepers, of course, and all congratulated themselves on their escape and also on the fact that they would have plenty of bear meat to eat. Robinson skinned the bear and on removing its stomach thought it seemed very heavy. Curiosity prompted him to open the stomach, when to his great surprise he found therein eight gold watches. Three of them were made by the Elgin Watch Co. and worth \$150 each; four by the Waltham Watch Co., worth \$125 each, and one by the New York Co., worth \$175. Further investigation proved that the eight watches were the ones lost by the citizens aforementioned and that the bear was the burglar as well as the stock thief. It is needless to say that Robinson was handsomely rewarded by the owners of the watches when he returned them to each one.

W. H. WEAREN.

PERSONAL POINTS.

P. M. McROBERTS, Esq., went to Louisville Saturday.

Mrs. JESSE MERSHON and family have moved to Stanford.

Mr. W. O. OWSEY, of Lancaster, passed through to Columbia yesterday.

Mrs. R. R. HOUIGAN, of Marion, is visiting her father, Mr. H. C. Rupley.

Mr. JOHN C. HILL, of the Maywood section, is visiting friends at Somerset.

MR. AND MRS. T. B. MEALS, of Rowland, are visiting friends in Louisville.

T. SHEP WEBB, of Florida, spent Saturday with his pretty lady friend here.

MR. JOHN R. FARRIS is over from Lexington spending a few days with friends.

Mrs. W. F. RAMSEY went to Lexington Friday to visit her son, L. H. Ramsey.

Mrs. L. B. COOK has gone to Harrodsburg to visit her brother, Mr. J. B. Owens.

JOE S. JONES, now of Lawrenceburg, was the guest of his parents here last week.

B. F. JONES, JR., is in Louisville buying goods for the Great Cash Bargain Store.

MISS KATE BLAIN, of the West End, was the guest of the Misses Ellis last week.

MISS LENA WELLS, of Junction City, was the guest of Mrs. Rannie Burks several days.

Mrs. JOHN J. McROBERTS has returned from a two-weeks' visit to relatives in Richmond.

Mrs. M. E. YOUNG, of Lancaster, spent last week with Mrs. A. C. Dunn near McKinney.

MISS TILLIE HALL, of Winchester, spent a few days with Misses Nannie and Kitie Baughman.

Mrs. G. W. DUNLAP was called to Lexington Saturday by the serious illness of a brother.

MR. B. J. C. HOWE went to Indianapolis Saturday in response to a dispatch calling him thither.

JUDGE AND MRS. J. S. KENDRICK, of Somerset are visiting their daughter, Mrs. J. W. Alcorn.

MISS LILLIE LITHGOW, a handsome lady from Louisville, arrived yesterday to visit Miss Janie Feland.

MISS DOLLIE WILLIAMS, of J. F. I., spent from Friday to Monday with her parents at Hustonville.—Jessamine Journal.

MISS LOUIE TIPTON and Gertrude Howard spent Sunday and Monday with Mrs. E. P. Woods, at her pleasant country home.

MISS EVA BUCHANAN, who has been visiting her sister, Mrs. John Haldeman, has returned to Crab Orchard.—Courier-Journal.

MRS. BETTIE TRAVIS, of Chattanooga, has returned home after a visit of six weeks to her sister, Mrs. Kate Twaddle, of Rowland.

MISS MARY CLAY THOMPSON returned with Mrs. E. T. Rochester from Louisville and is the guest of Miss Mattie Rochester and the Misses Lackey.

MISS MARY BRUCK and Glenn Bibb went to Boyle county yesterday to see Tom Yeager, who was accidentally shot ten days ago and if improving slowly.

MR. AND MRS. S. M. OWENS entertained Judge T. Z. Morrow and a few friends at supper Friday evening. It is needless to say that a splendid repast was spread.

MR. WILL R. WILLIAMS, southern traveler for the Parlin & Orendorff Agricultural Implement Co., Canton, Ill., is here in its interest and is registered at the Myers House.

MR. AND MRS. T. B. BRIGHT, of Gandy, Col. R. F. Logan and wife, of Boyle, Dr. W. N. Craig, of Louisville, Harris Craig and other relatives from a distance attended the burial of Dr. John Craig.

COL. W. O. BRADLEY is firing the republican heart in West Virginia. A dispatch from Fairmount says: "His speeches were models of eloquence and argument. He captured his audiences by his appeals to their intelligence and was rapturously applauded. He did a great work here."

CITY AND VICINITY.

NEW line Zeigler shoes at S. H. Shanks'.

BUGGY, almost new and just repainted, for sale. W. P. Walton.

LAST evening was Hallowe'en but we heard of no celebration of the old time superstition.

A VERY "indesirable" residence and store-room in Stanford for sale. Apply at corner Main and Somerset streets.

FOR SALE.—Desirable residence property. I offer for sale my lot and two dwelling houses on Lancaster street.

Mrs. M. E. Daviss.

CORN Shock twine at McKinney Bros.'

Just received a nice lot of fall and winter cloaks. S. H. Shanks.

NEW California Dried Peaches, Apricots and Prunes at A. A. Warren's.

FIFTY ordinary and two 300 candle power lamps for sale. W. P. Walton.

TAKE your eggs to B. F. Jones' Great Bargain Store and get 17 cents per dozen for them.

DEMOCRATS, go to the polls and vote early, if not often. They close under the new law at 4 p. m.

CALL and inspect the new goods at Danks, the Jeweler's. A finer stock was never seen in Stanford.

New line of stoves, stove pipe, zinc, coal vases, coal hods, shovels, tongs, poker, &c. at McKinney Bros.

Stamp, brothers, stamp, Stamp with care, And be sure you put the X Under the little roosture.

ELEGANT assortment of cloaks and wraps just received at S. H. Shanks' Call and see them before the stock is broken.

If the ladies will come and see our stock of dress goods, cloaks, underwear, &c., they will be surprised at its extent. J. S. Hughes.

I HAVE A NO. 1 saddle horse, six years old, and which drives well, that I will exchange for nice butcher stuff of any kind. M. F. Elkin.

JUNCTION CITY is to have a large furniture and undertaking establishment. Mr. Bloom, of New Mexico, is at the head of the enterprise.

A NUMBER of well-known speakers will address the citizens at Maywood, at A. C. Martin's store, Wednesday night, 2d, beginning at 6:30 o'clock.

ALL the ballots and other voting attachments, under the kangaroo law, have been received by County Clerk Cooper, who is busy sending them out to their proper places.

The trustee of the jury fund, Mr. B. G. Alford, tells us that the pay of jurors for the late term of circuit court was but \$628, the lowest by far during his six years of office. The office hasn't kept him in chewing tobacco lately.

THE surest and easiest way is to mark your ticket when you go to vote in the square under the rooster. It will be counted then for the full democratic ticket. If you go to scratching you will be sure to get muddled and spoil your ballot.

We are indebted to Editor Clarence E. Woods, of the Richmond Register, for a couple of buttons, which Gov. McCrory has had made for the Madison county club that bear his name. They contain a splendid picture of the governor before he cut off his moustache.

JUDGE J. A. CHAPPELL and Robert Davison have not met with success at either of the points they had arranged to speak. At Sugar Grove they couldn't get the key to the school-house, and at Highland a meeting was in progress and they were advised not to attempt to get a crowd.

DETECTIVES arrested W. Curtis Egbert at New Orleans for robbing his employers, J. Bacon & Sons, of Louisville, of \$80, but they refused to prosecute him out of deference to his mother, and he was released. It is said that he will come back to Crab Orchard, his former home, and endeavor to begin life afresh.

MISS LOUIE TIPTON and Gertrude Howard spent Sunday and Monday with Mrs. E. P. Woods, at her pleasant country home.

MISS EVA BUCHANAN, who has been visiting her sister, Mrs. John Haldeman, has returned to Crab Orchard.—Courier-Journal.

MISS MARY CLAY THOMPSON returned with Mrs. E. T. Rochester from Louisville and is the guest of Miss Mattie Rochester and the Misses Lackey.

CHURCH AFFAIRS.

Uncle Joe Hopper has just closed a meeting at McKinney which resulted in 10 conversions.

Rev. Stroth Cook, Jr., who has been Africa as a missionary of the Christian church, was expected to arrive at his father's home in Mercer yesterday, his health having necessitated his return.

Rev. W. J. Barbee, a prominent minister of the Christian church, died at Glasgow. He formerly had charge of a school at Ghent and was the author of "Barbee's Geology," a book of considerable merit.

Rev. Clarence E. Woods, of the Richmond Register, for a couple of buttons, which Gov. McCrory has had made for the Madison county club that bear his name. They contain a splendid picture of the governor before he cut off his moustache.

CRAB ORCHARD.

A very pretty home wedding was that of Miss Lizzie Buchanan and Mr. J. S. Henry, which took place Thursday, the 27th, at 10 o'clock a. m., at the home of the bride's mother, Mrs. H. L. Abraham. The ceremony was performed in a very impressive manner by Rev. Robt. Caldwell, of Danville. The house was prettily decorated for the occasion with chrysanthemums and evergreens. The bride looked exceedingly handsome in an even and red cloth suit, hat to match. Miss Lizzie is one of our prettiest and most popular girls; her sweet amiability and evenness of temper are her most beautiful traits. It will not be her fault if their married life is not a happy one. Mr. Henry is a young man of fine business qualifications and connected with the E. T. V. & G. railroad. Mr. John Duncan, of Knoxville, was best man to the groom and Miss Lillias Buchanan, sister of the bride, was the maid of honor. The other attendants were Mr. D. B. Bean, of Knoxville, and Miss Jennie Harlan, of Sedalia, Mo.; Mr. Simpson Little, Knoxville, and Miss Eva Buchanan; Mr. Frank Kincaid, Knoxville, and Miss May Newland; Mr. W. Claiborne, Knoxville, and Miss Margaret Buchanan. After the wedding a delightful lunch was served. The happy pair were the recipients of many beautiful presents. They left on the noon train for Louisville, Chicago and other cities. The best wishes of their host of friends go with them, and may their lives be one long honeymoon.

FARM AND TRADE ITEMS.

FOR SALE.—32 two year-old mules. All broke. M. S. Baughman.

—C. Vanoy sold to E. P. Woods 150 barrels of corn, to be delivered, at \$2.25.

—WANTED.—A couple of teams of extra good mules. Mares preferred. Beasley Bros.

—Mrs. M. E. Young has rented her farm of 128 acres near McKinney to D. J. Alcorn for \$400.

—500 bales of first-class timothy hay and 100 barrels of corn for sale. G. B. Barnett, Stanford, Ky.

—M. S. Baughman sold to I. M. Bruce a pair of 2-year-old mules for \$300 and to T. A. Coulter a pair for \$150.

—B. W. Gaines sold to Richard Cobb a lot of calves at \$15 and bought of Bill Simpson some shoats at \$3 a head.

—The Canaries are in the region where the trade winds take their rise and prevail most of the year. Three of these islands are connected with Europe by cable. With the exception of Bermuda all these islands have localities suitable for high level observatories, which, if established and kept going for only a single year, would greatly help to put the meteorology of the north Atlantic on a sound basis.

—The western shores of Europe, especially those of Great Britain and Ireland, are exposed to continual devastation by storms coming from the westward. The only source from which warning is received is from North America, and these warnings are of considerable value, but the north Atlantic is so wide that American storms often lose themselves in it, and others are generated of which Europeans at present receive no warning. By the system of observatories on islands of the Atlantic the Prince of Monaco proposes to collect daily information of the weather conditions throughout the oceanic basin, and thus Europe and America can be informed of storms that are approaching them from midocean and the information would be of great use to mariners besides being helpful to the science of meteorology. Meteorologists who have expressed themselves upon the subject think that the ideas advanced by the prince are entirely practicable and well worth carrying out. —New York Sun.

—Jack Spradley, who bought Mr. J. E. Farris' saddle mare, Allie Farris, for \$1,000, has sold her to a New York party for \$1,700.

—Poor & Embry have bought up to date fully 900 head of cattle for slopping purposes that cost them 2 to 3.10.—Lancaster Record.

—Nancy Hawks attempted to lower her record at Sedalia, Mo., on a kite-shaped track, but the best she could do was 2,062. High wind and too cold.

—There was a mistake in the figures on the Joe Myers farm. 'Squire J. S. Murphy says there are 400 acres and it brought \$2,000. Most of it is knob land.

—The Van Meter farm, containing 190 acres, on the old Frankfort pike, was sold a few days ago by Steadman & Bowman for \$90 per acre.—Lexington Gazette.

—Michael F. Dwyer, the well-known horseman, has bet \$10,000 to \$7,000 that Cleveland would be elected. The bet was made at Delmonico's, where the heaviest sports meet.

—L. H. Hudson received 7 fancy New York saddlers, which he purchased at Bowling Green, at \$200 to \$360. He also bought one from Pony Beazley for \$250.—Advocate.

—W. D. Clark bought of Geo. B. Nelson, 60,100 pound cattle at 31 cents; also of Mr. McKee, of Lawrenceburg, 55 head of about same weight at 3 cents. —Winchester Democrat.

—Two world's records were broken at the Stockton, Cal., kite-shaped track. Stamford, the stallion, lowered Palo Alto's time by 1/2 of a second, going the mile in 2:08. Rowena trotted a mile in 2:17½, Sunol's record as a two-year-old being 2:18.

—Wm. Moreland bought in Wayne county 40 hoppers at 2½ to 2 5/8; a car load of hogs at 4½ to 4½ and a car load for December delivery at 4c. He sold to E. W. Lee 40 feeding cattle at 3½c and bought of J. F. Cash a bunch of hogs at 4½c.

—The "trotting meeting" at Columbia, Tenn., which was sufficiently advertised to attract the best horses in the county, to go for \$100,000 alleged to be waiting for them, came to an inglorious ending Friday. It developed that there was no money in the hands of the "treasurer" of the association, and all save a few horsemen pulled up stakes and left the track.

Desired Information.

We desire to impress on the minds of the public the superiority of the service rendered by the Wisconsin Central Lines between Chicago, Milwaukee and St. Paul, Minneapolis, Duluth and all points in the Northwest. Two fast trains leave Chicago daily for St. Paul, Minneapolis and Duluth, and vice versa. Drawing Room Sleepers and Coaches of latest design. The Car Service is unsurpassed. It is the only line to the Pacific Coast over which both Pullman vestibuled, first-class and Pullman tourist cars are operated from Chicago via St. Paul without change.

—A copy of the "London Standard" can be obtained free upon application to your nearest ticket agent, or to Jas. C. Pond, General Passenger and Ticket Agent, Chicago, Ill.

An honest Swede tells his story in plain but unbroken language for the benefit of the public. "One of my children took a severe cold and got the croup. I gave her a teaspoonful of Chamberlain's Cough Remedy and in five minutes later I gave her one more dose. By this time she had to cough and sneeze so much that she could not sleep and slept good for fifteen minutes. Then she got up and vomited, then she went back to bed and slept good for the remainder of the night. She got the croup the second night and I gave her the same dose and she slept good again. This is because this medicine is good for the croup." Charles A. Thompson, Des Moines, Iowa, 25 and 26 cent bottles for sale by Dr. M. L. Bourne, Druggist and Optician, Stanford, Ky.

WEATHER STATIONS IN MIDOCEAN.

The Prince of Monaco's Plan for Reporting Weather Conditions at Sea.

The prince of Monaco is agitating in favor of the establishment of a number of meteorological observatories in the Atlantic ocean. He says the observations collected by the various weather bureaus along the ocean border do not give mariners an idea of what is going on far from land. The Atlantic is so vast a region that we cannot predicate the weather conditions at its center from observations made on its borders. He says, in substance, that this is a favorable time for the maritime nations to utilize good positions in the ocean to collect these observations.

The Bermudas, the Azores, the Canaries, and the Cape Verde islands are already or shortly will be connected with the continents by telegraphic cable. It would be sufficient for the present to establish on some suitable spot in each of these island groups an observatory provided with the instruments needed for noticing the first appearance, nature and progress of the disturbances that cannot be followed from the borders of the ocean. The Cape Verde islands are of particular interest, because they lie near the tropic on the parallels where the most important cyclones are generated, which, after crossing the Atlantic, spend their violence on the British coasts. Two of these islands are already in telegraphic communication with Europe.

Bermuda will also be a very useful point of observation, because it lies almost on the other extremity of the arc of the circle along which the north Atlantic cyclones pass. Bermuda is now in direct telegraphic communication with North America. Observations are already made there, but are not telegraphed to Europe. The Azores are not far from the center of the same circle. A submarine cable to connect the Azores with Portugal and America will soon be laid.

Madeira is in the neutral zone between the trade wind regions and the area of southwesterly winds farther north. As this area shifts with the season this island belongs sometimes to the one region and sometimes to the other. Madeira is now connected with Portugal by cable.

The Canaries are in the region where the trade winds take their rise and prevail most of the year. Three of these islands are connected with Europe by cable. With the exception of Bermuda all these islands have localities suitable for high level observatories, which, if established and kept going for only a single year, would greatly help to put the meteorology of the north Atlantic on a sound basis.

The western shores of Europe, especially those of Great Britain and Ireland, are exposed to continual devastation by storms coming from the westward. The only source from which warning is received is from North America, and these warnings are of considerable value, but the north Atlantic is so wide that American storms often lose themselves in it, and others are generated of which Europeans at present receive no warning.

By the system of observatories on islands of the Atlantic the Prince of Monaco proposes to collect daily information of the weather conditions throughout the oceanic basin, and thus Europe and America can be informed of storms that are approaching them from midocean and the information would be of great use to mariners besides being helpful to the science of meteorology. Meteorologists who have expressed themselves upon the subject think that the ideas advanced by the prince are entirely practicable and well worth carrying out.

—The western shores of Europe, especially those of Great Britain and Ireland, are exposed to continual devastation by storms coming from the westward. The only source from which warning is received is from North America, and these warnings are of considerable value, but the north Atlantic is so wide that American storms often lose themselves in it, and others are generated of which Europeans at present receive no warning.

By the system of observatories on islands of the Atlantic the Prince of Monaco proposes to collect daily information of the weather conditions throughout the oceanic basin, and thus Europe and America can be informed of storms that are approaching them from midocean and the information would be of great use to mariners besides being helpful to the science of meteorology. Meteorologists who have expressed themselves upon the subject think that the ideas advanced by the prince are entirely practicable and well worth carrying out.
